

Term Project: The Temple Inn & Suites

Overview

The Term Website Project is designed to be a comprehensive assessment of all the course objectives. You will be given specifications as if you were contracted to plan, design, and build a prototype website for an organization. In addition, developmental specifications will be given to ensure proper assessment of the application of course content, skills, and technologies. This independent, term project will be of your own design and work, you may not consult or work with any other individual or group. The content is fictitious, but the site should be complete without any placeholders or nonsense language. Create a working site containing relevant and reasonable information. The images and brief verbiage may be referenced from other sources which will need to be cited in a resource reference page, which link will be located in the footer.

Company Description

The **Temple Inn & Suites** is a hotel chain headquartered in Bethesda, MD that builds and manages specialized hotel accommodations near temple locations of The Church of Jesus Christ of Latter-day Saints around the world. The owner-operated company caters to temple workers, patrons, and their families by providing specialized services and accommodations that meet the needs of those patrons. The hotel accommodations and services are available to anyone willing to abide by the terms and policies outlined by the company. The overall goal of the website project is to promote and provide information about the specialized services that this hotel chain offers to meet the needs of temple patrons who come to serve in the temple or who participate in events such as sealings, weddings, receptions, and youth trips. The website should reflect the Church culture and be designed to support a temple oriented theme as well as the concept of being a haven of comfort and accessibility.

Specialized Services

- Free access to changing rooms and bathroom facilities for temple patrons who have traveled far and need to change to and from church clothes
- A playroom and low-cost, short-term babysitting services for the children of patrons

- Long-term stay accommodations in kitchenette suites for full-time temple missionaries
- Temple history themed reception and sitting area
- A wedding reception hall that can be easily customized with a simple catering menu and kitchen access for food preparation and serving
- A family search center that supports family search and ordinance work
- [Other ideas are welcome]

Free Amenities

- Breakfast
- Exercise/workout room
- Indoor pool
- WiFi high-speed internet access and smart TVs
- Parking
- Temple shuttle
- Family history consultation and family ordinance card service

Specifications

The following design and content-specific items are required in order to meet the functional specifications of this final project.

- The site must be **responsive** to small, medium, and larger, wide screen views.
- The design is consistent throughout the website providing ease of **navigation** and supports excellent user experiences.
- The **home** page is a contemporary, exciting landing page providing images of temples and temple attending activities and must include the following:
 - A call to action to make a hotel reservation
 - Readily available navigation and contact information for the hotel chain
 - Summary information about a temple of your choosing
- The **temple** page describes the details for at least four temples of your choice providing information about the address, telephone, email, services, history, ordinance schedule, session schedule, temple closure schedule (from a JSON source), and summary—current weather information obtained from a third party API.
- The **reservation** page contains a form that collects relevant information when making a normal stay reservation including the location, date, number and type of rooms, registrant's full name, email, phone, home state or country, and special accommodations/comments. You will need to use the CSS flex method for the layout of your reservation form for full credit.
- The **services** page provides a list with information of the amenities and special services offered at the hotel along with the following sub pages/content:
 - The **reception** page displaying information about the wedding reception accommodations, including options for food service and setup.

- A **full-time temple missionary** page that provides information and images about the suites offered at the hotel with a simple Contact Us form for more details.
